# An overview of your career

Learn at your own pace with this user interface (UI) & visual design-bootcamp fully online and flexible, whenever and wherever it suits you. Design your learning journey and advance at a rhythm that matches your lifestyle. Acquire in-demand, practical skills in user interface design (UI), prototyping, design patterns and design systems. Learn 1-on-1 with an experienced mentor, accompanied by your personal study advisor and our career coaches. Make yourself job-ready and secure a future-proof job.

## Skills you'll master

- UX and usability basics
- Conception of UI design principles
- Creation of high-fidelity prototypes and wireframing
- Application of design patterns, moodboarding, typography and accessible design
- Development of design systems, template design and atomic design method
- Design of visual identities and design system governance

German

# Benefits of our Guided E-Learning boot-camps

## **Learn anytime, anywhere**

Tailor your professional development to your preferences, schedule and lifestyle. Learn anytime, anywhere and at your own pace.

## **Personal mentoring via video meetings**

Book an appointment at any time with your mentor, who will accompany you on your learning and career path and provide you with personal support.

## **Job-ready practice in real-world projects**

Our courses are based on practical, industry-specific scenarios and teach practical skills that can be directly applied in your professional life.

## **University-level multimedia content**

You will benefit from interactive content at university level. You can expect comprehensive articles, videos, quizzes and practical exercises that bring the theory to life.

## **Interactive live sessions with industry experts**

Take part in interactive live workshops with industry experts to dynamically review and deepen your understanding of the learning content covered.

## **Career services for your new job**

With application training, career consultations and our active job placement service, we help you on your way to your new job.

# Learn how it suits you

...just like you enjoy it!

## Full-time

Want to immerse yourself fully in user interface (UI) & visual design? Then take part in our full-time intensive course.

- Qualification in 4 Wochen
- Learn full-time flexibly
- 30-40 Stunden per Woche

## Part-time

Do you have a part-time job, children or other commitments? Then take the user interface (UI) & visual design-course part-time.

- Qualification in 8 Wochen
- Learn part-time flexibly
- 10-20 Stunden per Woche

## While working

Do you have a full-time job and hardly any time to study during the day? Then study alongside your job, in the evenings or at weekends.

- Qualification in 4 Monaten
- Study online alongside your job
- 2-4 Stunden per Woche

## Satisfaction guarantee

### Try it for 14 days

Feel free to try the course risk-free for up to 14 days from the start date. If it doesn't meet your expectations, you may cancel your enrollment at no additional cost.

# Our course is suitable for the following people

## **Unemployed & job seekers**

You are unemployed or seeking work, eligible for a Bildungsgutschein, and want to use this time to qualify for a new job as a User Interface & Visual Designer.

## **Career changers and professionals switching fields**

You are a professional from another industry and want to become a User Interface & Visual Designer to advance your career, grow, and seize new opportunities.

## **Employees at risk of unemployment**

You are an employee at a company affected by structural change, your job is at risk, and you need training to secure your position.

## **New employees & career starters**

You have just started a job in a new work environment and lack the relevant skills to meet the job's demands and work productively.

## **Aspiring User Interface & Visual Designers**

You are a User Interface & Visual Designer and want to expand your knowledge in user interface (UI) & visual design and advance your career.

## **Graduates and students**

You have recently graduated or are still studying and want to enhance your academic qualifications with practical, industry-relevant skills.

# Your career prospects and job opportunities

## Take the next step in your career

Secure a job in one of the fastest-growing professions in the technology industry. Acquire in-depth knowledge in visual design, prototyping, and design systems. Develop exactly the skills you need for a career as User Interface & Visual Designer. Secure an attractive, well-paid job with a future in the IT industry.

# Project based learning

**Hands-on practice. Capstone project.**

**Recognized portfolio that stands**

Through project-based learning, we ensure a holistic, active, and sustainable approach to skill development that bridges theory and practice and optimally prepares learners for real-world challenges.

Our courses primarily focus on developing the skills that are essential for professional success and personal growth. Theory and practice complement each other, and participants are actively involved in the learning process.

## **Project with assignments and real-world case studies**

Start your professional development and work on a real-world project! Tackle realistic tasks that will perfectly prepare you for your future job.

## **A capstone project that makes an impression and opens doors**

Create a capstone project that highlights your learning achievements and the skills you've gained in user interface (UI) & visual design.

## **An industry-recognized portfolio that impresses**

Create an impressive portfolio that showcases your skills and opens doors with hiring managers.

## CURRICULUM

# What you will learn

### Hands-on education in the skills of the future

In this user interface (UI) & visual design course, you will acquire the most important skills based on a curriculum designed by industry experts. The user interface (UI) & visual design training includes industry-validated, interactive content at a university level and extensive hands-on experience in real projects. You will build a portfolio and complete the program with a capstone project.

# Module 1

## Fundamentals of User Experience and Usability

This module equips you with a comprehensive understanding of the concepts, techniques and methods of the iterative UX design process. Using practical case studies, you will learn how UX design increases product success and how to develop user-centered solutions.

### Core Skills

UX Foundations

Usability concepts

UX design process

Design methods

### Learning Outcomes

You will learn:

- to define the specialist areas of usability and user experience and name their objectives.
- to describe the iterative UX design lifecycle – from research to validation – in the context of other design processes and explain its phases.
- to understand the added value of user experience based on specific case studies and analyze how to use UX principles to develop successful products.

### Content

- The basics of user experience and usability
- The UX design process and its methods
- Case studies on the added value of user research

# Module 2

## User Interface Design

Are you ready to bring digital user interfaces to life? In this module, you will understand UI design as the central interface between people and products. You will learn basic principles and how to use processes & flows, wireframes & prototypes, and how to design visual feedback, interactions, and navigation for intuitive and aesthetic user interfaces.

### Core Skills

UI foundations

UI principles

User flows

Wireframing & prototyping

Interaction design

Feedback design

Navigation patterns

## Learning Outcomes

You will learn:

- to explain user interface (UI) design as an interface between humans and digital products and to justify its central importance for effective user interfaces.
- to identify the basic principles of user interface design and describe their application in the design of user-centered solutions.
- to define the processes and flows of user tasks and create initial wireframes and simple prototypes
- to analyze the importance and effect of visual feedback, interactions, and navigation patterns, and to use these elements specifically for intuitive and emotional user guidance
- to evaluate the role and influence of “invisible” elements of user interfaces on the user experience.

## Content

- Processes & Flows
- Wireframes & Prototypes
- Visual Feedback
- Interaction & Navigation Patterns

# Module 3

## Fundamentals of Visual Design

This module covers the fundamentals of visual design for digital products. You will learn how the targeted use of colors, typography, and visual elements significantly shapes the user experience and how to bring brand identities to life digitally. Find out which current trends are important and how to design accessible and consistent user interfaces.

## Core Skills

Visual design

Color theory

Typography

Visual language and symbols

UX & UI trends

Moodboarding

Accessible design

Design consistency

## Learning Outcomes

You will learn:

- to analyze current UX and UI trends and evaluate their influence on user behavior and design decisions.
- to develop a unique visual language for a product by translating brand identity into mood boards and design concepts
- to apply the basic principles of color, typography, images, and graphic elements to create intuitive and appealing user interfaces
- to understand the requirements of accessible design and integrate basic best practices into your concepts.
- to design visually appealing and strategically thought-out user interfaces that bring a brand to life and inspire users.

## Content

- UX & UI trends
- Mood boards & style guides
- Visual elements (typography, color, imagery, iconography)
- Accessible design

# Module 4

## Design Systems

Digital products are evolving rapidly, and with that comes the challenge of maintaining an overview and ensuring consistency. This module shows you how design systems can help you master this complexity and create consistent, scalable user experiences. You will learn hands-on how to develop robust design frameworks to increase your efficiency and sustainably improve the quality of your digital products.

## Core Skills

## Learning Outcomes

You will learn:

- what a design system is and how it differs from other design resources to derive its strategic value to organizations and explain it with examples.
- to apply the atomic design method to break down user interfaces into their basic building blocks and identify and create reusable UI components.
- to structure complex user interfaces with the help of organisms and templates, and to create these in practice.

- to become proficient in the strategic aspects of managing design systems (e.g., audit, roadmap, governance) to understand their structure, maintenance, and further development.

## **Content**

- Introduction to Design Systems
- Guidelines for Design Systems
- Deploying a Design System
- Managing a Design System

# Human-centered learning

**in an online learning environment**

Online, but not alone. Our proven, human-centered approach guarantees you ongoing support and a dedicated team to guide you every step of the way.

# Superb learning outcomes

## Start with great mentors

Our mentors will guide you every step of the way on your learning journey with experience, expertise, and a genuine commitment to your success. After all, learning is always easier when you have people who believe in you.

### Personal 1-on-1 mentoring

Receive personalized feedback and tailored support from industry experts during regular video calls.

### Review and Support

From portfolio reviews to interview coaching: our mentors will help you get ready for the job.

### Structured support

Week after week, your mentor will help you stay on track, grow, and reach your goals.

### Valuable feedback

From individual project tasks to your final assignment, your mentor will provide you with feedback on your practical work.

# Career services

## for you and your future

With our career services, we guide you through the entire professional development, from onboarding to successful completion and beyond. We support you from your first career goal to signing your contract with personalized coaching, practical support, and smart tools. We ensure that you're ready for the job market and connect you with interesting employers.

### Academic advising

Our academic advisors are here to offer you guidance and support, and will help you overcome any challenges that come your way.

### Job application training

You'll benefit from free job application training tailored to the needs of employers.

### Career advice sessions

We offer free career counseling sessions with experienced HR managers to provide you with personalized advice.

### Career coaching

Our career coaches will support you from the very start of the course and provide you with the best possible preparation for your professional career.

# Funding & financing

There are many ways for you to take advantage of our subsidized training programs. Below, we have compiled all the relevant information about the available funding options that you can use to participate in our training programs.

## Bildungsgutschein

00,00€

**100% funding** with an AZA-V-certified education voucher

## Self-payers

### One-time payment

2.240 €

## Monthly payment

### One-time payment before the course starts

### Monthly payment

€

# Bildungsgutschein

## 100% funded professional development

Take advantage of training or retraining funded through a Bildungsgutschein from the Agentur für Arbeit! You get the chance to gain specific skills and seize new career opportunities. All further training costs are covered by the Agentur für Arbeit or the Jobcenter.

A Bildungsgutschein allows you to participate in training programs free of charge. These are financed by the Agentur für Arbeit or the Jobcenter to support residents in Germany to upskill and improve their professional qualifications.

### Maßnahmenummer

Full-time: 955/37/2025

Here's how to get your Bildungsgutschein

#### 1 Consultation

Make an appointment at your local Agentur für Arbeit.

#### 2 Bootcamp

Choose an XDi course of your choice.

#### 3 Course offer

Request a quote for the course of your choice.

#### 4 Application

Submit an application and your course offering.

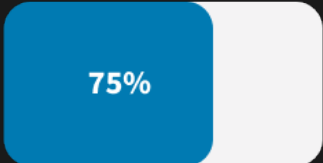

#### 5 Registration

Register and submit the education voucher.

# Qualifizierungschancengesetz

For job seekers and employees

At a time when technologies are constantly evolving, and the world of work is transforming, companies need to invest in professional development and upskilling of their employees. This ensures they are prepared for the challenges of the future and enables organizations to successfully navigate the digital transformation.

Company size	 <b>&lt;50</b> Employees	 <b>&lt;500</b> Employees	 <b>from 500</b> Employees

# Benefit from XDi

XDi focuses on new, interactive teaching and learning formats based on the latest findings in brain research. Our motto is “learning by doing”; participants in our training programs learn to apply relevant methods and techniques through practical exercises in realistic projects, with the support of a personal mentor.

# Officially recognized certificate

Upon completion of the training program, you will receive the „User Interface & Visual Designer“ certificate from the XDi – Experience Design Institute. The certificate is recognized by German UPA, the Interaction Design Foundation, and UXPA, and has earned an international reputation.

# Top salary & career opportunities

More jobs require more knowledge. Many of our students achieved positive results after attending our seminars.

## UI/User Interface Designer

designs user interfaces tailored to specific target groups

Up to **49.000€**

## UX/User Experience Designer

creates positive and intuitive user experiences

Up to **58.000€**

## UX Manager

supports business objectives through UX optimisations

Up to **55.400€**

## Usability Tester

examines and identifies potential for UX improvement

Up to **48.600€**

## Information Architect

structures content for target group-oriented use

Up to **43.000€**

## Interaction Designer

designs digital processes, dialogues and interactions

Up to **45.400€**

# See for yourself!

## Anca Freese

Great mix of theory and practice. I really enjoyed the [User Interface & Visual Design course](#). Coming from a user research background, I wanted to learn more about UI and design systems and this course gave me exactly that. The tasks were practical, the feedback was helpful, and I now feel more confident combining research and design in my work.

## David Wenk

UX/UI Product Designer

Clearly recommended! I completed the course '[User Interface Design & Visual Design](#).' The course material is up-to-date, and what makes it special is that you can book mentor calls. This makes a huge difference in reinforcing what you have learned.
